DKW Communications, Inc. awarded \$73M US Navy Software Maintenance and Fielding Training Systems (SWMFTS) Contract

Washington, DC. – DKW Communications, Inc. was awarded a \$73 million contract to provide corrective, adaptive, perfective and preventative software maintenance for aviation, surface, and undersea fielded training systems. This includes operator and weapons training systems, training environments, and communications network systems in compliance with Navy operational and training objectives.

Work will be performed in multiple CONUS and OCONUS locations: Florida, Virginia, North Carolina, Rhode Island, California, Texas, Washington, South Carolina, Nevada, and Japan.

The contract award executed on February 12, 2024, has one 5-year base period with two 1-year options.

DKW is headquartered in Washington, DC, employs approximately 200 professionals and generates roughly \$25M revenue annually. More information about DKW is available at www.dkwcommunications.com.
